

The Foundations of Catholic Health

COVID-19 RESPONSE GRATITUDE REPORT

reverence • compassion
integrity • innovation
community • excellence

 ver the past several months, Catholic Health faced a health crisis like never before. Thanks to the tremendous response from donors like you, we were ready. Please know that I am truly humbled and grateful for your generous support to The Foundations of Catholic Health in this fight against the COVID-19 pandemic.

With your help, our five Foundations – Continuing & Home Care Foundation, Kenmore Mercy Foundation, Mercy Hospital Foundation, Mount St. Mary’s Hospital Foundation and Sisters Hospital Foundation – have provided vital funding for a multitude of crucial needs. You were always there as our caregivers, or as I like to call them, healthcare heroes responded to incredible challenges.

In the pages of this special COVID Response Gratitude Report, you will see the impact of your gifts. Our healthcare heroes faced this challenge with extreme courage and compassion, and never wavered from providing the excellent care that makes Catholic Health so incredibly special. Striving to fulfill our mission to reveal the healing love of Jesus to all, we were led by our core values – reverence, compassion, integrity, innovation, community, and excellence.

Your kindness in this great time of uncertainty and need has meant so much. Over 60,000 meals provided to our caregivers kept stomachs full and spirits high. Over \$1 million in financial support allowed our team to respond with creativity and swiftness, and provided compassionate support to our caregivers in need.

On behalf of our healthcare heroes and those that we serve, thank you for your support of The Foundations of Catholic Health and stay safe.

Sincerely,

Mark A. Sullivan, CEO
Catholic Health

survivor
stories

Geraldine Biles started her fight with COVID-19 at Sisters Hospital Main Street, where she was first diagnosed in April. She was transferred to our COVID-19 Treatment Center and spent 11 days on a ventilator. After her 49-day battle with COVID-19 that included recovery in Kenmore Mercy Hospital's Medical Rehabilitation Unit, Geraldine was able to return home!

Every COVID-19 survivor has a compelling story, especially Geraldine Biles. As a hearing-impaired patient, her story included the use of in-person interpreters, video remote interpreting and other forms of technology to communicate with her care team. Once she was virus free, she worked hard with therapists to rebuild her physical endurance and improve her motor skills. Congratulations to Geraldine and her family, and thank you to all of the Catholic Health associates by her side throughout this journey!

Rusty Browning was surrounded by those he loved and the caregivers who saved his life, as he prepared for the next part of his recovery at Kenmore Mercy Hospital.

After his lengthy 81-day battle with COVID-19, Rusty Browning was finally discharged from the St. Joseph Campus for the next phase of his care at Kenmore Mercy Hospital. His family credits his amazing care team and the power of prayer for his miraculous recovery.

Dr. Mark St. Marie, a longtime southtown gastroenterologist, was finally able to return home after his 67-day battle with COVID-19.

His journey started at Mercy Hospital, followed by two weeks on a ventilator at the COVID-19 Treatment Facility at St. Joseph Campus. He was later discharged from Kenmore Mercy Hospital's Medical Rehabilitation Unit. The nursing team, as well as physical, occupational, and speech therapists, helped him to improve his strength and mobility, preparing him for life at home. Up to 20% of patients recovering from COVID-19 will require facility-based rehabilitation.
