	BACKGROUND AND OVER	ZVIEW
Article Title/Citation		
Study		
objectives/purpose		
(and research hypothesis,		
if applicable)		
Brief background (why		
issue is important,		
summary of previous		
literature)		
Funding sources		
	METHODS	
Study design and		
methodology		
D-4:4		
Patient selection & enrollment [inclusion/		
exclusion criteria]		
Outcome measures/		
endpoints		
_		
Statistical analyses		
	RESULTS	
Enrollment & baseline	KESUE15	
characteristics		
characteristics		
characteristics Summary of primary		
Summary of primary and secondary outcomes including subgroup analysis, etc.		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate	AUTHORS' DISCUSSION & CON	ICLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of	AUTHORS' DISCUSSION & CON	ICLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main	AUTHORS' DISCUSSION & CON	ICLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points	AUTHORS' DISCUSSION & CON	CLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main	AUTHORS' DISCUSSION & CON	ICLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points	AUTHORS' DISCUSSION & CON	ICLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points	AUTHORS' DISCUSSION & CON	ICLUSIONS
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points	AUTHORS' DISCUSSION & CON	
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths Study limitations		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths Study limitations		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths Study limitations		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths Study limitations Applicability and impact on healthcare		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths Study limitations Applicability and impact on healthcare providers		
Summary of primary and secondary outcomes including subgroup analysis, etc. Be sure to include both efficacy and safety parameters, if appropriate Brief summary of authors' main discussion points Author's conclusions Study strengths Study limitations Applicability and impact on healthcare providers Your Conclusions and
