2019 Gratitude Report

Living Our Values

Continuing & Home Care Foundation • Kenmore Mercy Foundation • Mercy Hospital Foundation • Mount St. Mary's Hospital Foundation • Sisters Hospital Foundation

The Foundations of Catholic Health

On behalf of the Foundations of Catholic Health, it is my honor to present this 2019 Gratitude Report highlighting our five Foundations - *Continuing & Home Care Foundation, Kenmore Mercy Foundation, Mercy Hospital Foundation, Mount St. Mary's Hospital Foundation* and *Sisters Hospital Foundation*.

Your generous support of the Foundations enables our hospitals and care facilities to keep pace—and lead—in an ever-changing healthcare environment. Although this report celebrates the excellent work from 2019, I would be remiss not to mention the tremendous outpouring of support as Catholic Health has combated COVID-19 through the first several months of 2020. You would be amazed at the incredible courage, compassion, and care our caregivers have provided, especially during these challenging times. Of course these stories are not captured in this publication, but please know that hundreds of lives have been saved at Catholic Health. Your support goes beyond the donation as can be attested by the great work we've done during this crisis. We remain committed to the right way to care, driven by these core values—reverence, compassion, integrity, innovation, community, and perhaps most importantly, excellence. That means excellence in achieving the highest standards of quality, safety, and service to meet the needs of patients across Western New York.

The stories in this report show how your donation is much more than simply a number. By giving to the Foundations

of Catholic Health, you are sharing in our core values. Of course, your support helps fund important medical advances and new technologies, which are so critical in healthcare today. But you also give the gifts of empathy and kindness, of caring and hope.

We would like to express our heartfelt thanks to our board members, physicians, associates, benefactors, and other supporters who continually work together to find creative solutions and strive for excellence in care.

The Christian spirit of caring for one another has guided Catholic Health's healing ministry for more than 165 years. Now, more than ever, our core values lead us forward. We will remain steadfast in answering the call to protect and heal Western New Yorkers, especially during these challenging times.

Thank you for your continued support of the Foundations of Catholic Health.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark A. Sullivan', written in a cursive style.

Mark A. Sullivan

Team Effort

At Mercy Hospital, the core value of reverence honors the dignity and uniqueness of each person by working in collaboration with patients. That collaboration saved Sal Buscaglia's life.

As a Division I college women's basketball coach for nearly 40 years, Sal admits he lived an unhealthy lifestyle: long days, late nights, and game day stress. But he never thought he would have a heart attack—especially the type doctors call a widow-maker.

Taken to Mercy Hospital, Sal was cared for by an entire team of doctors, nurses, and other professionals. Doctors immediately inserted a stent to free blockage in his heart. He was then moved to neuro-intensive care because brain damage was of concern.

Eventually surgeons had to install an ECMO to provide cardiac and respiratory support. Sal remained in a coma for six days while on the ECMO in Mercy's cardiovascular intensive care unit. As his health improved, Sal transitioned to the specialized cardiac floor and then to the Medical Rehab Unit at Mercy.

Once he returned home, he had a strong heart and no notable neuro damage, and he continued to recover with Mercy Home Care and Cardiac Rehab at Mercy Ambulatory.

"The Mercy Hospital team gave this coach the ultimate win—they saved my life," says Sal. 🙏

Road to Recovery

A collaborative effort at Mercy Hospital accelerated healing for Scott Bieler and shone a light on the medical team's core value of reverence for every life.

When friends tell Scott Bieler he is a walking miracle, he says it's because his dream team at Mercy Hospital was made up of some of the hardest working angels he ever met.

After a fall injured his neck and left Scott without the use of his hands and legs, he was rushed to Mercy Hospital. Thus began a journey of nearly two months recovering at Mercy, including surgery, physical therapy, and occupational therapy for the president and CEO of West Herr Automotive Group.

"Right from the start, in the ER, through the surgery, and the physical therapy, there was a common core of real concern," Scott explains. "The experience sharpened my awareness of how hard the medical staff work, all while treating me with respect and dignity."

Healing came slow at first, but encouragement at every turn soon had Scott walking and, before long, returning home and to work. He can't say enough about his "team" led by his partner, Kathy Lasher, who he notes was his star supporter, always cheering him on and never questioning his recovery. Also on his roster, Bieler points to surgeon Dr. Jeffrey Lewis, therapists Andrea Brockman and Emily Madeja, and his long-time executive assistant,

Annette Smith. "They all worked together to give me my life back," Scott says.

To show his gratitude, the Scott Bieler Foundation made a significant gift to the hospital's Emergency Center Renovation Project, which began in the summer of 2020. In addition, Scott Bieler donated a new Ford Edge for a car raffle to benefit the ER project. The hospital sold hundreds of tickets, which raised even more funds. Then, when Guy Agostinelli won the raffle and took the cash value, he donated a portion back to Mercy Hospital.

"I'm so grateful to Mercy Hospital, and I have a renewed appreciation of life," Scott concludes. "That may be the greatest gift my dream team gave me." 🙏

Living Our Values

In Good Standing

Guided by the core value of innovation, Mount St. Mary's continually strives to deliver creative solutions that empower patients to return to health. That's what helped Santo Candella get back in the swing of things.

Years of playing football as a halfback for Florida State University did a number on Santo Candella's knees. Nearly 58 years of running his construction business probably didn't help.

Like many people, Santo didn't want to hear he needed knee replacement surgery. But when it could not be delayed any longer, he was glad the surgery was done at Mount St. Mary's Hospital.

Santo says his knee replacement at Mount St. Mary's was quick, easy, and pain free. He jokes that he would do it again and fill in if a friend needed one. According to Santo, even though they were extremely busy, the nurses and staff always took the time to make sure he was comfortable.

In an additional testament to their great work, BlueCross BlueShield of Western New York named Mount St. Mary's one of their Blue Distinction Centers® in Knee and Hip

Replacement and Spine Surgery. This means, as a nationally designated healthcare facility, Mount St. Mary's demonstrates expertise in joint replacement surgery and is committed to delivering high-quality patient safety.

What it means for Santo is a return to the active lifestyle he and his wife, Adeline, enjoy. "I'm so grateful to be back on my feet and playing golf again," he says. 🏌️

Generosity on Wheels

Gift to Foundation enables Mount St. Mary's Hospital to purchase innovative patient transport chairs to help patients, staff, and volunteers.

When the Odd Fellow & Rebekah skilled nursing facility in Lockport was sold a couple of years ago, the Odd Fellow & Rebekah Benefit Fund was created with proceeds from the sale. Last year, a grant of \$48,000 to Mount St. Mary's Hospital Foundation from the Benefit Fund aligned with the hospital's core value of innovation and enabled the purchase of 18 new patient transport chairs.

Made by Stryker Medical, the innovative chairs provide a safer, more comfortable ride for the patient. The ergonomically designed chairs are used to move patients, including during admission and discharge, and they offer easy patient access, with swing-away footrests and stand-assist arms for convenience. One-touch foot brake; convenient storage for charts and oxygen tanks; and large, smooth rolling wheels make transport easier and more efficient for staff and volunteers.

According to Eugene Urban, former administrator at the Lockport facility and now executive director of the Benefit Fund, the organization recognized the wide-ranging impact the chairs would have at the hospital in making the grant.

"We are passionate about ensuring that the type of care provided by the former Odd Fellow & Rebekah continues, and we have a broad focus in serving the healthcare needs of our community," Eugene explains. "The patient transport chairs met our criteria, helping not only patients but also nurses, staff members, and volunteers. It was an honor for the Benefit Fund to provide this funding."

Pictured above
Mount St. Mary's staff offer patients a more comfortable experience with new patient transport chairs.

Living Our Values

Lasting Impressions

Sisters Hospital practices the core value of integrity by being accountable and in clear communication with patients and their families. It made a world of difference for Darlene Schulz and her husband.

Paul Schulz was a patient at Sisters Hospital for about two months. It gave his wife, Darlene, plenty of time to see how the compassionate staff at Sisters share the “right way to care” attitude for patients and their families.

Darlene says she can’t decide what impressed her the most at Sisters Hospital. The Intensive Care Unit nurses allowed her to stay overnight with Paul instead of making the long drive back to their home in Irving, New York. A floor manager brought her lasagna because she knew Darlene would enjoy a home-cooked meal. Dr. Bryan Butler performed the surgery to treat Paul’s colorectal cancer and kept her informed at every turn.

Darlene notes that the exceptional care at Sisters Hospital meant a lot to Paul. He eventually left Sisters Hospital for a rehab facility, but sadly, he passed away due to complications from the cancer.

Darlene reflected on how Sisters Hospital cared, not only for Paul but also for his wife of 23 years—and their children and grandchildren who came to visit. “I’d simply never experienced genuine compassion and care like this before,” says Darlene. 🙏

Caring for Mother & Child

The new Mother/Child Trauma-Informed Care model at Sisters Hospital brings the core value of integrity to light through training and counseling for medical teams.

As the opiate crisis continues its menacing threat throughout the community, Sisters Hospital sees its effects more and more in providing prenatal care for at-risk mothers. The cases of expecting mothers and new mothers with substance use disorder (SUD) have grown so dramatically that the stress on nurses, therapists, and other associates at the hospital has been overwhelming.

With the help of a generous grant from the Vogt Family Foundation in Buffalo, Sisters Hospital Foundation has been able to fund a new program to assist the maternal care medical teams in caring for mothers with SUD, their babies, and their family members. The program also helps the staff in caring for their own well-being.

Called the Mother/Child Trauma-Informed Care model, the program recognizes that trauma is the source of all SUDs. Open communication with medical team members, including available counseling, and training on trauma-informed care, aims to help Sisters Hospital staff better address the opiate crisis. The model helps improve prenatal care for at-risk moms, reduce withdrawal symptoms for babies, and stabilize families through supportive rehabilitation services.

“The Vogt Family Foundation was established so that community-minded people can work together to better our world,” explains Katie Schneider, chairman and trustee of the Foundation. “The program at Sisters Hospital aligns with our mission—we believe in the dignity of every person and every family—and we recognize the need for systemic change in how our community addresses the challenges we face.”

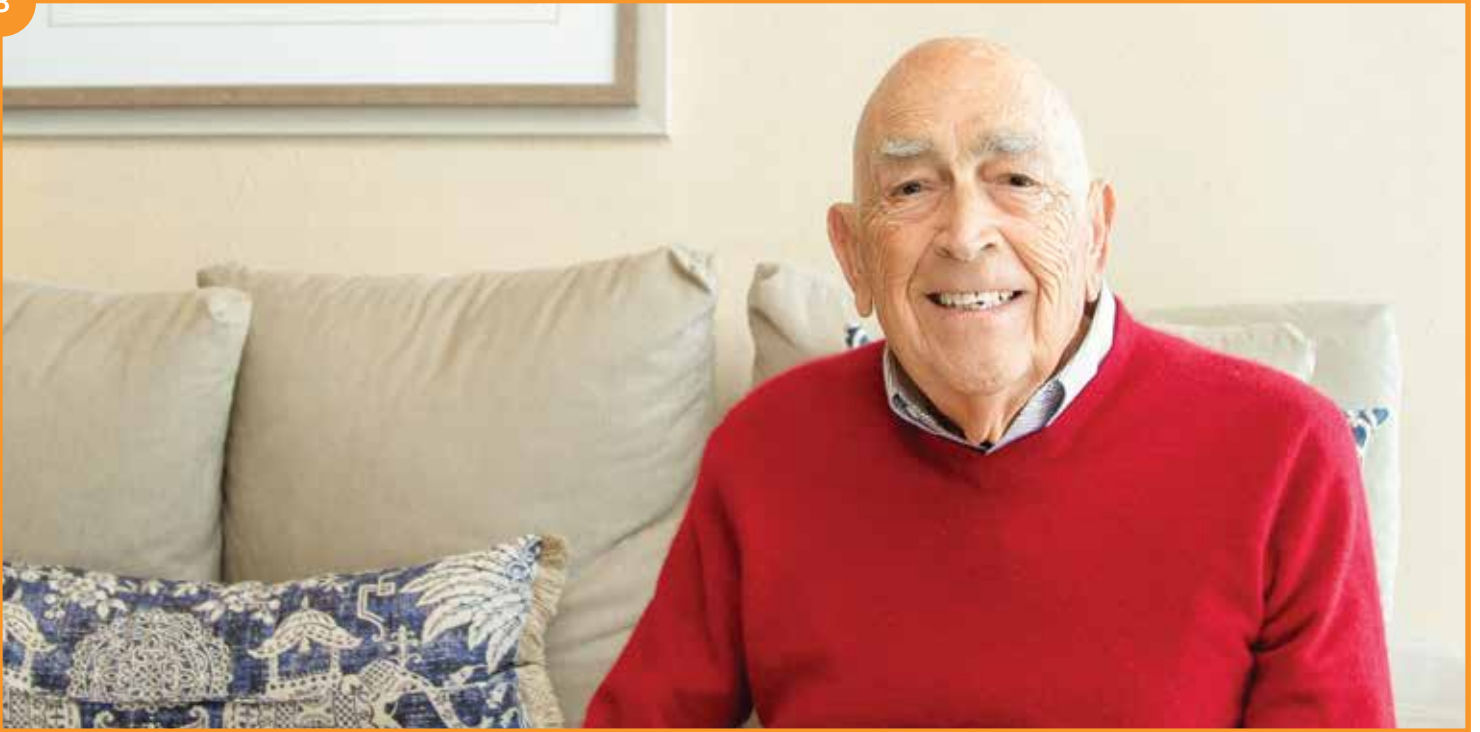

The trauma-informed care program at Sisters Hospital also works to reduce maternity staff turnover rates due to the stress of caring for mothers with SUDs. 

Pictured above

Living Our Values

Back to It

At Kenmore Mercy, the core value of compassion means a welcoming and calming hand for patients and their families at every turn. That was key to a faster recovery for Peter Figliotti.

When the pain he experienced was sharp and sudden, Peter thought it was just more arthritis flaring up. But when the pain wouldn't stop, an MRI revealed a cyst on his spine the size of a walnut.

Peter had worked hard ever since coming to America from Italy over 70 years ago. He was in the food and beverage business and owned restaurants. He and his wife raised four kids, and he had a hip replacement and other procedures at different hospitals. He points out that not much scares him, but this surgery made him very nervous.

From the moment he stepped into Kenmore Mercy, Peter felt an unexplainable calm. Everyone on staff was incredibly kind and reassuring. From admissions and pre-op through surgery and post-op, he knew he was in great hands. Dr. John Fahrbach, a neurosurgery specialist affiliated with Kenmore

Mercy, explained everything about the surgery and was there to speak with him in recovery. Peter was able to go home the same day!

Peter notes that his care at Kenmore Mercy helped him get back to enjoying life a lot faster after the surgery. "Because of Kenmore Mercy, every morning I wake up and say thanks for another day!" says Peter. 🙏

Welcome Support

Linde's generosity ensures that a culture of compassion begins at the entry to Kenmore Mercy Hospital with funding for the new welcome center.

Compassionate care at Catholic Health focuses not only on patients but also on their families, guests, and volunteers at our healthcare facilities.

At Kenmore Mercy Hospital, construction has been completed on a new welcome center to bring that compassion to the forefront at the hospital's main entrance. A \$75,000 gift to the Kenmore Mercy Foundation from nearby Linde, a global supplier of industrial gases, is helping transform the hospital's visitors' desk into a complete welcome and information center.

The center is designed to improve hospital safety, enhance patient and visitor flow to their destination, and create a more comfortable and efficient work space for volunteers who dedicate their time day after day to caring for the needs of guests.

According to Terry Bourgeois, site director at the Linde Technology Center, the gift is made possible through Linde's Global Giving Program.

"Linde has been part of the Tonawanda community for more than 100 years and is proud to recognize the key role Kenmore Mercy continues to play in the delivery of healthcare here," Terry explains. "The care provided by Kenmore Mercy to the community really matters to Linde. We make this gift in appreciation for the hospital and all of the healthcare professionals who serve our community."

Living Our Values

No Place Like Home

Villa LIFE Center demonstrates how the core value of community promotes kinship and social justice for individuals served by Continuing & Home Care. For Irene Jones, it is life-changing.

Irene Jones used to stay in bed most of the day. A number of health issues put her in and out of the hospital. As a widow, she lives alone, and her children began to worry about how much longer she could stay in the house by herself. The Villa LIFE program changed her life.

The program has allowed Irene to stay in her own home and provided her with services that get her out of the house several days a week. Irene's health has improved thanks to the many caring people looking after all her needs, from eye and dental care to occupational therapy and nutrition.

Best of all, Irene is active again. The program provides transportation to and from the Villa LIFE center, located on the Villa Maria College campus. The center is brand new and beautiful, with an activity room, exercise equipment, and a cafeteria, and she has made many friends. She can participate in crafts, entertainment, special outings, spiritual services, discussion groups, and games, among other activities.

Irene explains she couldn't ask for better care. "Instead of lying in bed, I'm living my life thanks to the Villa LIFE program," she says. 🙏

Learning to THRIVE

An innovative program models how Catholic Health partners improve healthcare for the entire community: patients and caregivers.

Entry-level caregivers—from home health aides to long-term care assistants—are on the front lines ensuring the health, safety, and well-being of patients across our community. Unfortunately, many caregivers face barriers in their careers, leading to high turnover rates. These barriers may include childcare needs, transportation, and family dynamics.

Now, a unique partnership among Catholic Health, the Cleveland Clinic, Ascension SE Michigan, and the Ralph C. Wilson Jr. Foundation is creating solutions through a collaborative effort known as THRIVE: Transformational Healthcare Readiness through Innovative Vocational Education.

Supported with more than \$20 million in grants from the Ralph C. Wilson Jr. Foundation, the pilot program addresses the obstacles that entry-level caregivers face. THRIVE provides education and training, with one-on-one coaching through caregiver support specialists and a focus on life skills, self-care, nutrition, stress reduction, and other issues.

The first local THRIVE class celebrated its graduation in June 2019 with City of Buffalo Mayor Byron Brown presiding.

Currently, there are more than 160 participants in the program. According to Joyce Markiewicz, Catholic Health executive vice president and chief business development officer, the THRIVE program is already proving successful.

“Our THRIVERS build confidence, achieve skills and get the respect they deserve, ultimately leading to better patient care,” she explains. “This program demonstrates how world-class healthcare organizations are coming together for the common good of the community.”

Pictured above
The innovative program model is improving healthcare for the entire community, funded by the Ralph C. Wilson Jr. Foundation.

Your Generosity

Supporting Patient Care

Our physicians, nurses, and caregivers provide outstanding care to our patients every day. The Foundations of Catholic Health are there to ensure our team can provide quality care. What we are able to do together leads to so many positive, uplifting moments for our patients.

TOTAL

\$7,118,518¹

CONTRIBUTIONS²

\$5,793,364

SPECIAL EVENTS (NET)

\$1,196,216

OTHER REVENUE

\$128,938

1. The total represents the combined philanthropy generated through the efforts of Continuing & Home Care Foundation, Kenmore Mercy Foundation, Mercy Hospital Foundation, Sisters Hospital Foundation, Mount St. Mary's Hospital Foundation, and Catholic Health in 2019.

2. "Contributions" include philanthropy revenue derived from Annual Giving, Major Giving, Planned Giving, and Corporate & Foundation Giving.
